**An Up-to-date School for Ambitious Boys and Girls**

**Superior Advantages**

THREE COURSES: CLASSICAL, LIBERAL, COMMERCIAL,  
PREPARATION FOR THE BEST COLLEGES AND SCIENTIFIC SCHOOLS.

Thorough training in the essentials of a practical education. Expenses very low, in comparison with privileges offered. Aim of the institution to promote industry, earnestness of purpose, integrity, and a high sense of honor.

Healthful location. Cases of serious illness in the school have been extremely rare. The sanitary conditions are above criticism.

The most modern and complete facilities for the study of all branches in its courses. Fine Library, Cabinets, Laboratories, Art Studio—all recently and greatly enlarged and improved.

The very best equipment and instruction for training in Short-hand, Bookkeeping, and in Business Methods and Practice.

# NOT A FAILURE

IN TWENTY-FIVE YEARS.

There may be some better criterion of the value of an article than the "test of time," but if there is we do not know of it.

## Kendall's Spavin Cure

has stood this "test of time" and is more popular to-day than ever before. Unequalled for Spavin, Ring Bone Curb, Splint and all forms of Lameness. Read the unsought endorsement of others and then act for yourself.

Tippettville, Ga., February 14, 1903.

Dr. B. J. Kendall Co. Enosbury Falls, Vt.

Gentlemen:—I have been using your remedies for about twenty-five years with success. I keep your Spavin Cure all the time. I have never known of a single failure where it was used according to directions. I think it is the grandest remedy on earth for what you recommend it. I can tell of a number of cases where it was used that got well in a few days that seemed almost hopeless. Please mail me your "Treatise."

Very truly yours,

A. B. WALDEN.

Price, \$1; six for \$5. As a liniment for family use it has no equal. Ask your druggist for Kendall's Spavin cure, also "A Treatise on the Horse," the book free, or address,

## TO THE MEMBERS OF The General Assembly

The Legislative Souvenir Album, of 1904, containing views about the State House, portraits of the Congressional delegation, Governor, Lieut-Governor, Supreme Court, State Officials, Officers and Members of the Senate, Officers and Members of the House, together with biographical sketches of each, is now nearing completion; in order that the portraits of none be omitted it is absolutely necessary that those who have been interviewed by Mr. Jeffrey should make it a point to have a talk with him on the matter without delay.

It will be a work of rare merit and great interest. Commenting on our Album of 1902, prominent Vermonters say:

Dear Mr. Jeffrey—The book is neatly and well gotten up in every way; is printed on excellent paper; and the biographies and photographs make it a most appropriate and educational souvenir. You are certainly to be congratulated on your work.

*Richard Braton*

I am much pleased with the book, which seems to be fully up to the promise.

*John W. Mansfield*

It is a good job and reflects credit on you. I trust you will continue each session to get out such a work.

*Thos. DeChency*

My dear Jeffrey—The volume is interesting comprehensive and valuable.

*Fredrick G. Keelwell*

I have received the work and am very much pleased therewith. It is exceedingly interesting and valuable. In mechanical execution and the general clearness of the portraits, I think it superior to any heretofore published. GEO. W. WING, Librarian.

This is the first mantle clock made in pure Spanish mission style and sold at a reasonable price. Its lines are simple and beautiful, and it is especially adapted to the demand for dark oak clocks suitable to the study, den and living room.

The case is made of heavy antique oak, in dull finish, carefully and substantially built. It is fitted with a durable eight-day American movement that is guaranteed to keep good time, and strikes the hour and half-hour on a sweet-toned cathedral gong.

## State Agricultural College.

Instruction is given in the University in Four Departments, viz:

THE DEPARTMENT OF ARTS,  
THE DEPARTMENT OF AGRICULTURE,  
THE DEPARTMENT OF APPLIED SCIENCE,  
THE DEPARTMENT OF MEDICINE.

The first of these comprises the usual Academic Course in Languages, Mathematics, Physical Sciences, Mental, Moral and Political Philosophy, Rhetoric, Literature and History. This course is partly required and partly elective.

The second is subdivided into courses in Chemistry; Civil, Mechanical and Electrical Engineering. A course in "Commerce and Economics" prepares for a business career.

The University includes the "State Agricultural College," having the benefit of the Morrill Fund in aid of Agriculture and the Mechanic Arts, and also the "Hatch Experiment Station" Fund. Students are received in this department without payment of tuition or laboratory charges. A winter course is arranged to meet the needs of those who cannot leave the farm at other times. Free room-rent is also offered to Agricultural students.

The course in Medicine embraces the subjects usually taught in American Medical Colleges.

The University has a Military Department, which is under the charge of a United States officer, a graduate of West Point.

Candidates will be admitted to the Academic Department without examination if they bring certificates from reputable Preparatory Schools, whose course of study fully meets the requirements for admission, but students so admitted are on probation during the first term.

All the courses in the Collegiate Departments are open to young women upon the same conditions as to young men. The young women are required to room and board in private families approved by the faculty.

A number of scholarships, cancelling tuition, have been established for the benefit of young men and young women of limited means.

The University enjoys unusual facilities for securing employment for students in the Engineering Department, both during the course and after its completion.

The "Billings Library" contains the University Library and special collections aggregating 70,000 volumes. The Reading-room is supplied with the leading scientific and literary journals, American and European.
